SUMMARY

Passionate Software Engineer with 3+ years of experience building modern, scalable web applications. Full-stack developer who bridges the gap between technical complexity and user-friendly design. Proven ability to deliver production-ready solutions across e-commerce, task management, and data visualization. Committed to clean code, thoughtful design, and exceptional user experiences.

WORK EXPERIENCE

SOFTWARE ENGINEER (FULL STACK) 2022 – Present
Freelance / Contract

- Architected and delivered 15+ full-stack applications across education, healthcare, and e-commerce industries
- Built responsive, accessible user interfaces using React, Next.js, and TypeScript with Tailwind CSS and Material UI
- Developed secure REST APIs and backend systems using Java Spring Boot, Node.js, and Firebase
- Integrated payment gateways (Stripe, PayPal, Flutterwave) for e-commerce platforms
- Implemented real-time features using WebSocket and Firebase for collaborative applications
- Designed database schemas and optimized queries for PostgreSQL and MongoDB
- Led client discovery workshops to translate business requirements into technical solutions
- Deployed applications on Vercel, AWS, and Firebase with CI/CD pipelines

JUNIOR FRONTEND DEVELOPER 2022 – 2023
First Professional Role

- Built responsive web applications using React and TypeScript
- Collaborated with design teams to implement pixel-perfect UI/UX designs
- Optimized application performance, reducing load times by 40%
- Implemented state management using Context API and Redux
- Participated in code reviews and mentored junior developers

PROJECTS

E-Commerce Platform React, Node.js, MongoDB, Stripe

Built a full-stack e-commerce solution with secure payment integration. Implemented product catalog, shopping cart, and admin dashboard. Integrated Stripe payment gateway with webhook support. Deployed with CI/CD pipeline on Vercel.

Task Management App React, Firebase, Material-UI, Context API

Developed a collaborative task management tool with real-time updates. Implemented team collaboration features and task assignment. Used Firebase for authentication and real-time database sync.

Weather Dashboard JavaScript, Chart.js, API Integration

Created an interactive weather dashboard with live data visualization. Integrated multiple weather APIs for comprehensive data display. Built responsive interface with dynamic charts and maps.

Portfolio Website React, Material-UI, Framer Motion

Designed and built a modern portfolio with dark/light mode support. Implemented smooth animations and interactive UI components. Integrated AI-powered virtual assistant for visitor engagement.

EDUCATION

Computer Science Degree 2020 – 2022

Focus on software engineering, algorithms, and data structures.

Built foundational knowledge in programming and system design.

TECHNICAL SKILLS

Frontend

React, Next.js, JavaScript, TypeScript, Tailwind CSS, Material UI, Bootstrap, Framer Motion

Backend

Java, Spring Boot, Node.js, NestJS, REST APIs, Firebase, Authentication

Database

PostgreSQL, MongoDB, Firebase Firestore

DevOps & Cloud

Git, Vercel, Supabase, Postman, AWS, Firebase Hosting

Design

Figma, Framer, Adobe Photoshop, Webflow, Wix Studio, WordPress

AI & Automation

Bolt.new, Cursor AI, DeepSeek, Claude, Lovable, Replit, v0

CERTIFICATIONS & ACHIEVEMENTS

15+ Projects Delivered
Successfully completed projects for clients across multiple industries.

100% Client Satisfaction
Maintained perfect satisfaction rating across all projects.

24-Hour Response Time
Committed to fast, professional client communication.

AVAILABILITY

Freelance
Available for new projects

Consultation
Free initial consultation to understand project requirements

Response Time
Typically responds within 24 hours
